6 November 2026

9:00 AM – 5:00 PM

Aloft Hotel, Kuala Lumpur Sentral

Malaysia MADANI: Reaching for the Skies, Rooted in the Earth

Introduction

BUDGET 2027: NAVIGATING MALAYSIA'S NEXT PHASE OF GROWTH

Budget 2027 marks an important milestone in Malaysia's economic and fiscal agenda, setting the direction for the nation's next phase of growth amidst an increasingly dynamic global landscape. As the fifth MADANI Budget and the second Budget under the Thirteenth Malaysia Plan, it continues to reinforce the Government's commitment to strengthening economic resilience, advancing structural reforms and fostering sustainable, inclusive growth under the theme **Malaysia MADANI: Reaching for the Skies, While Anchored on Our Values.**

Against a backdrop of evolving geopolitical developments, global economic uncertainty and accelerating technological transformation, Budget 2027 is expected to introduce measures that will influence Malaysia's fiscal framework, investment landscape and broader business environment. Beyond taxation, the Budget is anticipated to shape policy direction across areas including governance, sustainability, digitalisation and long-term economic competitiveness.

As organisations respond to an increasingly complex regulatory and economic environment, understanding the implications of Budget 2027 will be critical to strategic planning, governance and informed decision-making. The ability to interpret policy developments and assess their practical implications will remain essential in supporting business resilience and long-term value creation.

Through technical analysis and practical perspectives, the programme examines the tax, regulatory and policy developments arising from Budget 2027, together with their implications for businesses, investment and the wider economy.

Reaching Higher, Staying Grounded

The theme **Malaysia MADANI: Reaching for the Skies, While Anchored on Our Values** reflects a balanced vision for Malaysia's continued development. As the nation pursues higher-value growth and greater economic competitiveness, equal emphasis is placed on sound governance, fiscal responsibility and sustainable progress. Together, these principles provide the foundation for strengthening resilience, fostering investor confidence and creating enduring value for businesses, communities and the nation.

As Malaysia enters the next phase of its development, the ability to balance ambition with accountability will be increasingly important. The priorities set out in Budget 2027 reinforce the need for policies that encourage innovation and investment while promoting transparency, institutional strength and long-term sustainability. These principles will continue to shape the operating environment for businesses and influence the decisions that define Malaysia's future economic trajectory.

YB Sim Tze Tzin GUEST OF HONOUR
